

New Developments in Neurofibromatoses and RASopathies: Their management, diagnosis and therapeutic targets

27th – 29th November 2017

Crowne Plaza Hotel, Kochi, Kerala, India

The meeting will bring together leading scientists, clinicians, researchers and trainee health care professionals in the field of genetics, oncology, neurology, paediatrics, cardiology, surgery, dermatology and biomedical sciences from across the world. This is the first meeting on RASopathies being held in Asia. The aim of the conference is to ensure that health professionals and scientists are kept abreast of any new developments in clinical practice and also to identify therapeutic targets for several of these rare diseases.

Internationally renowned speakers include:

- Professor Luis Parada, New York, USA
- Professor Brigitte Widemann, NCI, USA
- Professor Bruce Korf, Birmingham, USA
- Professor Kate Rauen, UC Davis, USA
- Professor Gareth Evans, Manchester, UK
- Professor Nancy Ratner, Cincinnati, USA
- Professor Scott Plotkin, Boston, USA
- Professor Eric Legius, Leuven, Belgium
- Professor Miikka Vikkula, Brussels, Belgium
- Professor Bronwyn Kerr, Manchester, UK
- Professor Pierre Wolkenstein, Paris, France
- Dr Sue Huson, Manchester, UK
